Routine well visits are regularly scheduled to assess overall patient health, screen for diseases, and to immunize. At these visits we address sleeping, socialization, nutritional, developmental, and any safety concerns.

Well Baby visits occur at 2 weeks, 6 weeks, 3.5 months, 5.5 months, 9 months, 12 months, 15 months, 18 months, 2 years, and 2.5 years.

Children and Adolescents are then seen annually beginning at 3 years old.

For our patient's convenience, we have a CLIA certified lab on site, for any specialty labs, we have the ability to draw and will send out to appropriate outside labs.

In addition to well visits, sick care, and allergy we offer other services and consultations, please see our website for the most current list.
